Subject Index

Abducens nerve
  Bilateral trigeminal and abducens neuropathies following low-velocity, crushing head injury. Case report, 508
Absorptive mechanisms
  Clearance of macromolecular and particulate substances from the cerebrospinal fluid system of the rat, 343
Acoustic tumor
  Total removal of acoustic neurinomas, 170
Acromegaly
  Acromegaly with normal growth-hormone levels and pituitary histology. Case report, 503
  Neurosurgical management of acromegaly. Results in 82 patients treated between 1972 and 1977, 454
Acrylic
  Reconstruction of the atlas and axis with wire and acrylic after metastatic destruction. Case report, 668
Adenoma. *See* Pituitary adenoma
ADH
  Selective traumatic infarction of the human anterior hypothalamus. Clinical anatomical correlation, 645
Agenesis
  Transsellar intracavernous intercarotid collateral artery associated with agenesis of the internal carotid artery. Case report, 393
American Association of Neurological Surgeons
  Program of the Annual Meeting of the American Association of Neurological Surgeons, April 22–26, 1979, 403
American Association of Neurosurgical Nurses
  Program of the Annual Meeting of the American Association of Neurosurgical Nurses, April 22–26, 1979, 409
Amikacin
  Intraventricular administration of amikacin for complicated Gram-negative meningitis and ventriculitis, 95
Amphotericin B
  Amphotericin B and CCNU. Letter, 695
  Amphotericin B and CCNU. Response, 695
Anastomosis
  Middle meningeal to middle cerebral arterial bypass for cerebral revascularization. Case report, 802
  Superficial temporal artery-middle cerebral artery (STA-MCA) anastomosis. Pathological study of two cases, 377
  Superficial temporal artery to middle cerebral artery anastomosis. Intraoperative evaluation by fluorescein angiography and xenon-133 clearance, 560
  Transsellar intracavernous intercarotid collateral artery associated with agenesis of the internal carotid artery. Case report, 393
Aneurysm
  An analysis of follow-up results of 1000 intracranial saccular aneurysms with definitive surgical treatment, 152
  Early and late results of intracranial direct surgery of anterior communicating artery aneurysms, 433
  Fenestrated basilar artery with an associated saccular aneurysm. Case report, 262
  Intracranial aneurysms associated with arteriovenous malformations, 742
  Intraoperative evaluation of cerebral hemodynamics using directional Doppler technique. Part 2: Saccular aneurysms, 570
  Monitoring of cortical excitability during induced hypotension in aneurysm operations, 595
  Regional cerebral blood flow in patients with ruptured intracranial aneurysms, 587
  Repair of cerebrospinal fluid fistula following transoral transclival approach to a basilar aneurysm. Technical note, 834
  Surgical treatment of distal anterior cerebral artery aneurysms, 40
  Treatment of carotid-cavernous fistulas by cavernous sinus occlusion, 131
Angiography
  Reconstitution of "totally" occluded internal carotid arteries. Angiographic and technical considerations, 747
Angioma
  Combined neurilemmoma and angioma. Tumor of ectomesenchyme and a source of bleeding, 81
Anterior cerebral artery
  Surgical treatment of distal anterior cerebral artery aneurysms, 40
Anterior communicating artery
  Early and late results of intracranial direct surgery of anterior communicating artery aneurysms, 433
Antibiotics
  The effect of topical application of antibiotics on the cerebral cortex. An experimental update, 792
Anticonvulsants
  The nature of posttraumatic epilepsy, 545
Antiplatelet drug
  Transient ischemic attacks due to increased platelet aggregation and adhesiveness. Ultrastructural and functional correlation, 449
Arachnoid cyst
  Diagnosis and treatment of suprasellar arachnoid cyst. Report of three cases, 515
  Familial intradural arachnoid cysts. Report of two cases, 826
  Pathology of an arachnoid cyst. Case report, 224
  Use of computerized tomography scanning in supratentorial arachnoid cysts. A report on 20 children and four adults, 333
Arachnoid villi
  Clearance of macromolecular and particulate substances from the cerebrospinal fluid system of the rat, 343
Arterial flow
  Intraoperative evaluation of cerebral hemodynamics using directional Doppler technique. Part 2: Saccular aneurysms, 570
Arteriovenous fistula
  Balloon treatment of cerebrovascular lesions. Letter, 537
  Balloon treatment of cerebrovascular lesions. Response, 537
  Paraplegia due to posttraumatic pelvic arteriovenous fistula treated by surgery and embolization. Case report, 805
  Treatment of carotid-cavernous fistulas by cavernous sinus occlusion, 131
Arteriovenous malformation
  Dural-cortical anastomosis in pial arteriovenous malformation. Case report, 522
  Individual variability in cortical localization of language, 164
  Intracranial aneurysms associated with arteriovenous malformations, 742
  Intraoperative evaluation of cerebral hemodynamics using directional Doppler technique. Part I: Arteriovenous malformations, 145
Artery bypass. *See* Anastomosis
Aspiration
  Craniopharyngiomas in childhood. A rational approach to treatment, 617
Aspirin
  Endothelial cell damage and thrombus formation following temporary arterial occlusion. Effects of pretreatment with aspirin or heparin, 578
  Surgical postoperative bleeding associated with aspirin ingestion. Report of two cases, 682
Astrocytoma
  Recurrent subependymal giant-cell astrocytoma in the absence of tuberous sclerosis. Case report, 106
  Subependymal giant-cell astrocytoma. Case report with ultrastructural study, 240
Atlanto-axial joint
  Computerized tomographic demonstration of rotational atlanto-axial fixation. Case report, 115

Cerebellar hemorrhage
Acute hydrocephalus and death one month after non-surgical treatment for acute cerebellar hemorrhage. Case report, 374
Cerebellopontine angle tumor
Primary intracranial epidermoid carcinoma. Case report, 830
Cerebral blood flow
Cerebrovascular responses to subarachnoid blood and serotonin in the monkey, 441
Detailed monitoring of the effects of mannitol following experimental head injury, 423
Regional cerebral blood flow and oxygen utilization in superficial temporal-middle cerebral artery anastomosis patients. An exploratory definition of clinical problems, 733
Regional cerebral blood flow in patients with ruptured intracranial aneurysms, 587
Studies of experimental cervical spinal cord transection. Part III: Effects of acute cervical spinal cord transection on cerebral blood flow, 633
Superficial temporal artery to middle cerebral artery anastomosis. Intraoperative evaluation by fluorescein angiography and xenon-133 clearance, 560
Cerebral cortex
The effect of topical application of antibiotics on the cerebral cortex. An experimental update, 792
Individual variability in cortical localization of language, 164
Cerebral metabolism
Detailed monitoring of the effects of mannitol following experimental head injury, 423
Regional cerebral blood flow and oxygen utilization in superficial temporal-middle cerebral artery anastomosis patients. An exploratory definition of clinical problems, 733
Cerebral revascularization. *See* Anastomosis
Cerebral vasospasm
Experimental assessment of phenoxybenzamine in cerebral vasospasm, 158
Cerebrospinal fluid
Clearance of macromolecular and particulate substances from the cerebrospinal fluid system of the rat, 343
Further data on the acute effect of intravenous steroids on canine CSF secretion and absorption, 477
Intracranial pressure and conductance to outflow of cerebrospinal fluid in normal-pressure hydrocephalus, 489
Surgical removal of bilateral papillomas of the choroid plexus of the lateral ventricles with resolution of hydrocephalus. Case report, 677
Cerebrospinal fluid fistula
Repair of cerebrospinal fluid fistula following transoral transclival approach to a basilar aneurysm. Technical note, 834
Cerebrospinal fluid rhinorrhea
Empty sella and rhinorrhea. A report of eight treated cases, 466
Cerebrovascular disease
Regional cerebral blood flow and oxygen utilization in superficial temporal-middle cerebral artery anastomosis patients. An exploratory definition of clinical problems, 733
Cervical spine
A new self-drilling skull traction device with flexion-extension modification. Technical note, 528
Reconstruction of the atlas and axis with wire and acrylic after metastatic destruction. Case report, 668
Swan-neck deformity secondary to osteomyelitis of the posterior elements of the cervical spine. Case report, 388
Cervical spine injury
Computerized tomographic demonstration of rotational atlantoaxial fixation. Case report, 115
Halo immobilization of cervical spine fractures. Indications and results, 603
Cervical traction
A new self-drilling skull traction device with flexion-extension modification. Technical note, 528
Chemotaxis
Prolactin suppression of leukocyte chemotaxis *in vitro*, 462
Chemotherapy
BCNU and malignant glioma. Letter, 839
BCNU and malignant glioma. Response, 839
Chemotherapy as an adjunct in the initial management of cerebellar medulloblastomas. A preliminary report, 721
Spinal chordomas, 312
Cholesteatoma
Primary intracranial epidermoid carcinoma. Case report, 830
Chordoma
Spinal chordomas, 312
Choroid plexus
Surgical removal of bilateral papillomas of the choroid plexus of the lateral ventricles with resolution of hydrocephalus. Case report, 677
Cisternography
Metrizamide cisternography in the evaluation of pituitary adenomas and the empty sella syndrome, 472
Clinical trials
Factors influencing future progress in neurosurgery, 541
Clip
Endothelial cell damage and thrombus formation following temporary arterial occlusion. Effects of pretreatment with aspirin or heparin, 578
Heifetz clip failure. A metallurgical study, 368
Clivus
Repair of cerebrospinal fluid fistula following transoral transclival approach to a basilar aneurysm. Technical note, 834
Collagen
Neurosurgical desmoid tumors. Presentation of four cases with a review of the differential diagnoses, 725
Coma
Use of iatrogenic barbiturate coma. Letter, 694
Use of iatrogenic barbiturate coma. Response, 694
Coma scale
Long-term neuropsychological outcome of closed head injury, 412
Symptomatic subependymoma. Letter, 271
Computer graphics
A computerized tomography-computer graphics approach to stereotaxic localization, 715
Computerized tomography
Acute hydrocephalus and death one month after non-surgical treatment for acute cerebellar hemorrhage. Case report, 374
Computerized tomographic demonstration of rotational atlantoaxial fixation. Case report, 115
Computerized tomography and pathological correlation in cystic meningiomas. Report of two cases, 103
A computerized tomography-computer graphics approach to stereotaxic localization, 715
Computerized tomography scanning appearances of intracranial meningiomas. An attempt to predict the histological features, 320
The contrast-enhanced CT scan in the diagnosis of isodense subdural hematoma, 64
Diagnosis and treatment of suprasellar arachnoid cyst. Report of three cases, 515
Early diagnosis of delayed posttraumatic intracerebral hematomas, 217
The evaluation of seizure disorders by computerized tomography, 328

Index

Neurosarcoidosis with computerized tomographic visualization and transsphenoidal excision of a supra- and intrasellar granuloma. Case report, 814
The outcome with aggressive treatment in severe head injuries. Part I: The significance of intracranial pressure monitoring, 20
Primary intracranial epidermoid carcinoma. Case report. 830
Subdural tension pneumocephalus. Report of two cases, 525
The use of computerized tomography in the diagnosis of cerebral hydatid cysts, 339
Use of computerized tomography scanning in supratentorial arachnoid cysts. A report on 20 children and four adults, 333
Conductance
Intracranial pressure and conductance to outflow of cerebrospinal fluid in normal-pressure hydrocephalus, 489
Congenital abnormality
Pathology of an arachnoid cyst. Case report, 224
Congenital malformation
Failure of pyramidal tract decussation in the Dandy-Walker syndrome. Report of two cases, 382
Simultaneous clinical manifestation of subependymoma of the fourth ventricle in identical twins. Case report, 655
Controlled experiments
Factors influencing future progress in neurosurgery, 541
Cranial nerve injury
Bilateral trigeminal and abducens neuropathies following low-velocity, crushing head injury. Case report, 508
Craniectomy
Motion of bones and volume changes in the neurocranium after craniectomy in Crouzon's disease. A roentgen stereometric study, 494
Craniopharyngioma
Craniopharyngiomas in childhood. A rational approach to treatment, 617
Cranioplasty
Agenesis of parietal bones with restoration of the cranial vault. Case report, 674
Craniostenosis
Craniofacial growth following experimental craniosynostosis and craniectomy in rabbits, 187
Motion of bones and volume changes in the neurocranium after craniectomy in Crouzon's disease. A roentgen stereometric study, 494
Craniosynostosis
Craniofacial growth following experimental craniosynostosis and craniectomy in rabbits, 187
Crouzon's disease
Motion of bones and volume changes in the neurocranium after craniectomy in Crouzon's disease. A roentgen stereometric study, 494
Cushing, Harvey
Cushing at the Countway, 3
Harvey Cushing: Author, investigator, neurologist, neurosurgeon, 5
Harvey Cushing: The man, 17
A neuropathologist's perspective on the celebration of the 2000th operation of Harvey Cushing, 13
Cyclophosphamide
Chemotherapy as an adjunct in the initial management of cerebellar medulloblastomas. A preliminary report, 721
Cystic meningioma
Computerized tomography and pathological correlation in cystic meningiomas. Report of two cases, 103
Cysticercus cyst
Pipette suction for atraumatic extraction of intraventricular cysticercosis cysts. Technical note, 531

Dandy-Walker syndrome
Failure of pyramidal tract decussation in the Dandy-Walker syndrome. Report of two cases, 382
Desmoid tumor
Neurosurgical desmoid tumors. Presentation of four cases with a review of the differential diagnoses, 725
Dexamethasone
Effects of dexamethasone on tumor-induced brain edema and its distribution in the brain of monkeys, 361
Dilantin
Transient hemiparesis: A rare manifestation of diphenylhydantoin toxicity. Report of two cases, 685
Diphenylhydantoin toxicity
Transient hemiparesis: A rare manifestation of diphenylhydantoin toxicity. Report of two cases, 685
Direct cortical response
Monitoring of cortical excitability during induced hypotension in aneurysm operations, 595
Discectomy
Epidural bleeding in anterior discectomy. Letter, 126
Epidural bleeding in anterior discectomy. Response, 126
Prospective study of 100 lumbosacral discectomies, 283
Doppler flowmeter
Intraoperative evaluation of cerebral hemodynamics using directional Doppler technique. Part I: Arteriovenous malformations, 145
Intraoperative evaluation of cerebral hemodynamics using directional Doppler technique. Part 2: Saccular aneurysms, 570
Dural artery
Dural-cortical anastomosis in pial arteriovenous malformation. Case report, 522

Ecchinococcus
The use of computerized tomography in the diagnosis of cerebral hydatid cysts, 339
Edema
Effects of dexamethasone on tumor-induced brain edema and its distribution in the brain of monkeys, 361
Education
A neurosurgical nurse practitioner training program. An educational technical note, 798
Embolization
Balloon treatment of cerebrovascular lesions. Letter, 537
Balloon treatment of cerebrovascular lesions. Response, 537
Paraplegia due to posttraumatic pelvic arteriovenous fistula treated by surgery and embolization. Case report, 805
Empty sella
Empty sella and rhinorrhea. A report of eight treated cases, 466
Metrizamide cisternography in the evaluation of pituitary adenomas and the empty sella syndrome, 472
Endarterectomy
Reconstitution of "totally" occluded internal carotid arteries. Angiographic and technical considerations, 747
Endodermal sinus tumor
Primary intracranial endodermal sinus tumor. Case report, 246
Endothelium
Endothelial cell damage and thrombus formation following temporary arterial occlusion. Effects of pretreatment with aspirin or heparin, 578
Epidermoid cyst
Primary intracranial epidermoid carcinoma. Case report. 830
Epidural hematoma
Epidural bleeding in anterior discectomy. Letter, 126
Epidural bleeding in anterior discectomy. Response, 126
Epilepsy
The effect of topical application of antibiotics on the cerebral cortex. An experimental update, 792
The evaluation of seizure disorders by computerized tomography, 328
Hemangioma calcificans. Case report of an intraparenchymatous calcified vascular hematoma with epileptogenic potential, 110

Individual variability in cortical localization of language, 164
The nature of posttraumatic epilepsy, 545
Estrogen
Estrogen-receptor protein in intracranial meningiomas, 499
Evoked potential
Experimental spinal cord injury produced by slow, graded compression. Alterations of cortical and spinal evoked potentials, 48
Evoked response
The effects of ischemia on long-tract neural conduction in the spinal cord, 639
Ewing's sarcoma
Localized primary intracranial Ewing's sarcoma of the orbital roof. Case report, 811
External carotid artery
Dural-cortical anastomosis in pial arteriovenous malformation. Case report, 522
Reconstitution of "totally" occluded internal carotid arteries. Angiographic and technical considerations, 747
Extra-intracranial bypass
Middle meningeal to middle cerebral arterial bypass for cerebral revascularization. Case report, 802

Facetectomy
Spondylolisthesis after multiple bilateral laminectomies and facetectomies for lumbar spondylosis. Follow-up review, 45
Spondylolisthesis after surgery for spondylosis. Letter, 693
Spondylolisthesis after surgery for spondylosis. Response, 693
Fluorescein angiography
Superficial temporal artery to middle cerebral artery anastomosis. Intraoperative evaluation by fluorescein angiography and xenon-133 clearance, 560
Foreign medical graduate
Foundation for International Education in Neurological Surgery, Inc. Report of Activities, 1976–1978, 123
Foundation for International Education in Neurological Surgery, Inc.
Foundation for International Education in Neurological Surgery, Inc. Report of Activities, 1976–1978, 123
Fourth ventricle
Simultaneous clinical manifestation of subependymoma of the fourth ventricle in identical twins. Case report, 655
Frontal exostosis
Localized primary intracranial Ewing's sarcoma of the orbital roof. Case report, 811

Gamma hydroxybutyrate
Alteration of posttraumatic ischemia in experimental spinal cord trauma by a central nervous system depressant, 207
Ganglion
Thermoregulatory sweating in palmar hyperhidrosis before and after upper thoracic sympathectomy, 88
Genetic traits
The nature of posttraumatic epilepsy, 545
Germinal neoplasm
Primary intracranial endodermal sinus tumor. Case report, 246
Germinoma
Primary intracranial endodermal sinus tumor. Case report, 246
Glioma
BCNU and malignant glioma. Letter, 839
BCNU and malignant glioma. Response, 839
Evaluation of malignant glioma patients during the postirradiation period, 624
Glomus jugulare tumor
Glomus jugulare tumor presenting with increased intracranial pressure. Case report, 823
Gorlin's syndrome
Multiple nevoid basal-cell carcinoma syndrome (Gorlin's syndrome): Possible confusion with metastatic medulloblastoma. Case report, 100
Gout
Extradural spinal involvement by gout. Case report, 236
Gouty tophus
Extradural spinal involvement by gout. Case report, 236
Granuloma
Subdural spinal fungal granuloma due to *Candida tropicalis*. Case report, 395
Growth hormone
Acromegaly with normal growth-hormone levels and pituitary histology. Case report, 503
Neurosurgical management of acromegaly. Results in 82 patients treated between 1972 and 1977, 454

Halo device
Halo immobilization of cervical spine fractures. Indications and results, 603
Hamartoma
Hemangioma calcificans. Case report of an intraparenchymatous calcified vascular hematoma with epileptogenic potential, 110
Recurrent subependymal giant-cell astrocytoma in the absence of tuberous sclerosis. Case report, 106
Hangman's fracture
Halo immobilization of cervical spine fractures. Indications and results, 603
Head injury
Bilateral trigeminal and abducens neuropathies following low-velocity, crushing head injury. Case report, 508
Detailed monitoring of the effects of mannitol following experimental head injury, 423
Early diagnosis of delayed posttraumatic intracerebral hematomas, 217
Long-term neuropsychological outcome of closed head injury, 412
The outcome with aggressive treatment in severe head injuries. Part I: The significance of intracranial pressure monitoring, 20
The outcome with aggressive treatment in severe head injuries. Part II: Acute and chronic barbiturate administration in the management of head injury, 26
The physiopathology of respiration in neurosurgical patients, 699
Pulmonary shunt as a prognostic indicator in head injury, 768
Subdural hematoma in an adult following a blast injury. Case report, 260
Hemangioma calcificans
Hemangioma calcificans. Case report of an intraparenchymatous calcified vascular hematoma with epileptogenic potential, 110
Hematoma
Early diagnosis of delayed posttraumatic intracerebral hematomas, 217
The outcome with aggressive treatment in severe head injuries. Part I: The significance of intracranial pressure monitoring, 20
Regional cerebral blood flow in patients with ruptured intracranial aneurysms, 587
Subdural hematoma in an adult following a blast injury. Case report, 260
Surgical postoperative bleeding associated with aspirin ingestion. Report of two cases, 682

Index

Hemiparesis
Transient hemiparesis: A rare manifestation of diphenylhydantoin toxicity. Report of two cases, 685
Hemorrhage, *see also* Subarachnoid hemorrhage
Combined neurilemmoma and angioma. Tumor of ectomesenchyme and a source of bleeding, 81
Heparin
Endothelial cell damage and thrombus formation following temporary arterial occlusion. Effects of pretreatment with aspirin or heparin, 578
Hormone
Estrogen-receptor protein in intracranial meningiomas, 499
Hydatid cyst
The use of computerized tomography in the diagnosis of cerebral hydatid cysts, 339
Hydrocephalus
Acute hydrocephalus and death one month after non-surgical treatment for acute cerebellar hemorrhage. Case report, 374
Failure of pyramidal tract decussation in the Dandy-Walker syndrome. Report of two cases, 382
Histological examination of kaolin-induced hydrocephalus. Its implications in the therapy of animals with experimentally induced hydrocephalus, 70
Intracranial pressure and conductance to outflow of cerebrospinal fluid in normal-pressure hydrocephalus, 489
Long-term results after ventriculoatrial and ventriculoperitoneal shunting for infantile hydrocephalus, 179
Pathology of an arachnoid cyst. Case report, 224
Percutaneous restoration of a kinked shunt. Case report, 391
Scoliosis and hydrocephalus in myelocele patients. The effects of ventricular shunting, 174
Surgical removal of bilateral papillomas of the choroid plexus of the lateral ventricles with resolution of hydrocephalus. Case report, 677
Hydromyelia
Scoliosis and hydrocephalus in myelocele patients. The effects of ventricular shunting, 174
Hyperprolactinemia
Pituitary tumors and hyperprolactinemia. Letter, 399
Pituitary tumors and hyperprolactinemia. Response, 399
Hypertension
Catecholamines and intracranial pressure. Letters, 691, 692
Catecholamines and intracranial pressure. Responses, 691, 692
Pressor response resulting from experimental contusion injury to the spinal cord, 58
Hypophysectomy
Transsphenoidal hypophysectomy for disseminated carcinoma of the prostate gland. Results in 53 patients, 275
Vasospasm following transcranial removal of large pituitary adenomas. Report of three cases, 229
Hypotension
Monitoring of cortical excitability during induced hypotension in aneurysm operations, 595
Pressor response resulting from experimental contusion injury to the spinal cord, 58
Spinal cord blood flow and conduction during experimental cord compression in normotensive and hypotensive dogs, 353
Studies of experimental cervical spinal cord transection. Part III: Effects of acute cervical spinal cord transection on cerebral blood flow, 633
Hypothalamus
Selective traumatic infarction of the human anterior hypothalamus. Clinical anatomical correlation, 645
Hypoxia
Pulmonary shunt as a prognostic indicator in head injury, 768

Ileal loop
Results of urinary diversion in patients with myelomeningocele, 773

Immunology
Macrophages in experimental and human brain tumors. Part 1: Studies of the macrophage content of experimental rat brain tumors of varying immunogenicity, 298
Macrophages in experimental and human brain tumors. Part 2: Studies of the macrophage content of human brain tumors, 305
Prolactin suppression of leukocyte chemotaxis *in vitro*, 462
Incomplete excision
Craniopharyngiomas in childhood. A rational approach to treatment, 617
Incontinence
Results of urinary diversion in patients with myelomeningocele, 773
Infection
Subdural spinal fungal granuloma due to *Candida tropicalis*. Case report, 395
Internal carotid artery
Reconstitution of "totally" occluded internal carotid arteries. Angiographic and technical considerations, 747
Transsellar intracavernous intercarotid collateral artery associated with agenesis of the internal carotid artery. Case report, 393
International health agencies
Foundation for International Education in Neurological Surgery, Inc. Report of Activities, 1976–1978, 123
Intervertebral disc, *see also* Discectomy
Spondylolisthesis after multiple bilateral laminectomies and facetectomies for lumbar spondylosis. Follow-up review, 45
Intracranial hypertension
The outcome with aggressive treatment in severe head injuries. Part II: Acute and chronic barbiturate administration in the management of head injury, 26
Intracranial pressure
Catecholamines and intracranial pressure. Letters, 691, 692
Catecholamines and intracranial pressure. Responses, 691, 692
Cerebral hemodynamic changes during plateau waves in brain-tumor patients, 483
Detailed monitoring of the effects of mannitol following experimental head injury, 423
Glomus jugulare tumor presenting with increased intracranial pressure. Case report, 823
Nonvolumetric methods of detecting impaired intracranial compliance or reactivity. Pulse width and wave form analysis, 758
The outcome with aggressive treatment in severe head injuries. Part I: The significance of intracranial pressure monitoring, 20
Use of iatrogenic barbiturate coma. Letter, 694
Use of iatrogenic barbiturate coma. Response, 694
Balloon treatment of cerebrovascular lesions. Letter, 537
Balloon treatment of cerebrovascular lesions. Response, 537
Intraoperative management
The physiopathology of respiration in neurosurgical patients, 699
Intraventricular cyst
Pipette suction for atraumatic extraction of intraventricular cysticercosis cysts. Technical note, 531
Intraventricular pressure
Intracranial pressure and conductance to outflow of cerebrospinal fluid in normal-pressure hydrocephalus, 489
Intraventricular therapy
Intraventricular administration of amikacin for complicated Gram-negative meningitis and ventriculitis, 95
Ischemia
Alteration of posttraumatic ischemia in experimental spinal cord trauma by a central nervous system depressant, 207
Dural-cortical anastomosis in pial arteriovenous malformation. Case report, 522
The effects of ischemia on long-tract neural conduction in the spinal cord, 639
Loss of autoregulation and posttraumatic ischemia following experimental spinal cord trauma, 198

Monitoring of cortical excitability during induced hypotension in aneurysm operations, 595
Regional cerebral blood flow and oxygen utilization in superficial temporal-middle cerebral artery anastomosis patients. An exploratory definition of clinical problems, 733
Spinal cord blood flow and conduction during experimental cord compression in normotensive and hypotensive dogs, 353
Superficial temporal artery-middle cerebral artery (STA-MCA) anastomosis. Pathological study of two cases, 377
Superficial temporal artery to middle cerebral artery anastomosis. Intraoperative evaluation by fluorescein angiography and xenon-133 clearance, 560
Isobutyl-2-cyanoacrylate
Balloon treatment of cerebrovascular lesions. Letter, 537

Kinesthetic afferent
Physiological study of presumed ventralis intermedius neurons in the human thalamus, 290

Laminectomy
Metastatic tumors of the spine. Letter, 536
Spondylolisthesis after surgery for spondylosis. Letter, 693
Spondylolisthesis after surgery for spondylosis. Response, 693
Language
Individual variability in cortical localization of language, 164
Limbic system
Principles of pain management. A short review, 554
Lumbar disc surgery
Prospective study of 100 lumbosacral discectomies, 283
Lymphoma
Uveitis and cerebral reticulum-cell sarcoma (large-cell lymphoma). Case report, 660

Macrophage
Macrophages in experimental and human brain tumors. Part 1: Studies of the macrophage content of experimental rat brain tumors of varying immunogenicity, 298
Macrophages in experimental and human brain tumors. Part 2: Studies of the macrophage content of human brain tumors, 305
Mannitol
Detailed monitoring of the effects of mannitol following experimental head injury, 423
Medulloblastoma
Chemotherapy as an adjunct in the initial management of cerebellar medulloblastomas. A preliminary report, 721
Multiple nevoid basal-cell carcinoma syndrome (Gorlin's syndrome): Possible confusion with metastatic medulloblastoma. Case report, 100
Meningioma
Computerized tomography and pathological correlation in cystic meningiomas. Report of two cases, 103
Computerized tomography scanning appearances of intracranial meningiomas. An attempt to predict the histological features, 320
Estrogen-receptor protein in intracranial meningiomas, 499
Meningioma of the anterior part of the third ventricle. Case report, 233
Middle meningeal to middle cerebral arterial bypass for cerebral revascularization. Case report, 802
Neurosurgical desmoid tumors. Presentation of four cases with a review of the differential diagnoses, 725
Meningitis
The effect of topical application of antibiotics on the cerebral cortex. An experimental update, 792
Intraventricular administration of amikacin for complicated Gram-negative meningitis and ventriculitis, 95
Metabolic inhibitor
Alteration of posttraumatic ischemia in experimental spinal cord trauma by a central nervous system depressant, 207
Metal implant
Heifetz clip failure. A metallurgical study, 368
Metastasis
Computerized tomography and pathological correlation in cystic meningiomas. Report of two cases, 103
Macrophages in experimental and human brain tumors. Part 2: Studies of the macrophage content of human brain tumors, 305
Metastatic tumors of the spine. Letter, 536
Reconstruction of the atlas and axis with wire and acrylic after metastatic destruction. Case report, 668
Metrizamide
Metrizamide cisternography in the evaluation of pituitary adenomas and the empty sella syndrome, 472
Microglia
Macrophages in experimental and human brain tumors. Part 1: Studies of the macrophage content of experimental rat brain tumors of varying immunogenicity, 298
Microglioma
Uveitis and cerebral reticulum-cell sarcoma (large-cell lymphoma). Case report, 660
Middle cerebral artery
Superficial temporal artery-middle cerebral artery (STA-MCA) anastomosis. Pathological study of two cases, 377
Middle meningeal artery
Middle meningeal to middle cerebral arterial bypass for cerebral revascularization. Case report, 802
Myelodysplasia
Scoliosis and hydrocephalus in myelocele patients. The effects of ventricular shunting, 174
Myelomeningocele
Results of urinary diversion in patients with myelomeningocele, 773
Myelotomy
Effect of vasodilators and myelotomy on recovery after acute spinal cord injury in rats, 349

Nerve sheath
Bilateral trigeminal neurofibrosarcoma. Case report, 253
Neurilemmoma
Combined neurilemmoma and angioma. Tumor of ectomesenchyme and a source of bleeding, 81
Neurilemmoma of the fourth cranial nerve. Case report, 519
Neurinoma
Multiple intramedullary neurinomas of the spinal cord. Case report, 817
Total removal of acoustic neurinomas, 170
Neurochemistry
Estrogen-receptor protein in intracranial meningiomas, 499
Neurofibromatosis
Multiple intramedullary neurinomas of the spinal cord. Case report, 817
Neurofibrosarcoma
Bilateral trigeminal neurofibrosarcoma. Case report, 253
Neurohumoral substrate
Principles of pain management. A short review, 554
Neuropsychology
Long-term neuropsychological outcome of closed head injury, 412

Index

Neurosurgical nurse
A neurosurgical nurse practitioner training program. An educational technical note, 798
Neurosurgical training
Factors influencing future progress in neurosurgery, 541
Foundation for International Education in Neurological Surgery, Inc. Report of Activities, 1976–1978, 123
Neurotransmitter
Principles of pain management. A short review, 554
Norepinephrine
Studies of experimental cervical spinal cord transection. Part II: Plasma norepinephrine levels after acute cervical spinal cord transection, 629
Normal-pressure hydrocephalus
Intracranial pressure and conductance to outflow of cerebrospinal fluid in normal-pressure hydrocephalus, 489

Oculovestibular function
Long-term neuropsychological outcome of closed head injury, 412
Odontoid fracture
Halo immobilization of cervical spine fractures. Indications and results, 603
Optic chiasm
Selective traumatic infarction of the human anterior hypothalamus. Clinical anatomical correlation, 645
Optic nerve
Neurovascular relationships of the sphenoid sinus. A microsurgical study, 31
Orbital roof
Localized primary intracranial Ewing's sarcoma of the orbital roof. Case report, 811
Osteomyelitis
Swan-neck deformity secondary to osteomyelitis of the posterior elements of the cervical spine. Case report, 388
Osteophytes
Thoracic myelopathy caused by osteophytes of the articular processes. Thoracic spondylosis, 779

Pain
Principles of pain management. A short review, 554
Pain relief
Prospective study of 100 lumbosacral discectomies, 283
Transsphenoidal hypophysectomy for disseminated carcinoma of the prostate gland. Results in 53 patients, 275
Papilledema
Glomus jugulare tumor presenting with increased intracranial pressure. Case report, 823
Localized primary intracranial Ewing's sarcoma of the orbital roof. Case report, 811
Papilloma
Surgical removal of bilateral papillomas of the choroid plexus of the lateral ventricles with resolution of hydrocephalus. Case report, 677
Paraplegia
Paraplegia due to posttraumatic pelvic arteriovenous fistula treated by surgery and embolization. Case report, 805
Parietal bone
Agenesis of parietal bones with restoration of the cranial vault. Case report, 674
Pathology
The physiopathology of respiration in neurosurgical patients, 699
Pediatric brain tumor
Chemotherapy as an adjunct in the initial management of cerebellar medulloblastomas. A preliminary report, 721
Phenoxybenzamine
Experimental assessment of phenoxybenzamine in cerebral vasospasm, 158
Physiology
The physiopathology of respiration in neurosurgical patients, 699
"Ping-pong ball" fracture
Depressed skull fracture in the neonate. Report of three cases, 512
Pipette
Pipette suction for atraumatic extraction of intraventricular cysticercosis cysts. Technical note, 531
Pituitary adenoma
Acromegaly with normal growth-hormone levels and pituitary histology. Case report, 503
Metrizamide cisternography in the evaluation of pituitary adenomas and the empty sella syndrome, 472
Neurosurgical management of acromegaly. Results in 82 patients treated between 1972 and 1977, 454
Prolactin suppression of leukocyte chemotaxis *in vitro*, 462
Vasospasm following transcranial removal of large pituitary adenomas. Report of three cases, 229
Pituitary gland
Acromegaly with normal growth-hormone levels and pituitary histology. Case report, 503
Pituitary hormone
Collection of blood from pituitary stalk and portal veins in monkeys, and from the pituitary sinusoidal system of monkey and man, 75
Pituitary stalk
Collection of blood from pituitary stalk and portal veins in monkeys, and from the pituitary sinusoidal system of monkey and man, 75
Pituitary tumor
Metrizamide cisternography in the evaluation of pituitary adenomas and the empty sella syndrome, 472
Pituitary tumors and hyperprolactinemia. Letter, 399
Pituitary tumors and hyperprolactinemia. Response, 399
Vasospasm following transcranial removal of large pituitary adenomas. Report of three cases, 229
Plateau wave
Cerebral hemodynamic changes during plateau waves in brain-tumor patients, 483
Platelet
Surgical postoperative bleeding associated with aspirin ingestion. Report of two cases, 682
Transient ischemic attacks due to increased platelet aggregation and adhesiveness. Ultrastructural and functional correlation, 449
Pneumocephalus
Subdural tension pneumocephalus. Report of two cases, 525
Posterior fossa surgery
Subdural tension pneumocephalus. Report of two cases, 525
Postoperative care
The physiopathology of respiration in neurosurgical patients, 699
Posttraumatic epilepsy
The nature of posttraumatic epilepsy, 545
Potassium
Effects of dexamethasone on tumor-induced brain edema and its distribution in the brain of monkeys, 361
Pressure wave
Intracranial pressure and conductance to outflow of cerebrospinal fluid in normal-pressure hydrocephalus, 489
Prognosis
Long-term neuropsychological outcome of closed head injury, 412
Neurological prognosis after traumatic quadriplegia. Three-year experience of California Regional Spinal Cord Injury Care System, 611
Pulmonary shunt as a prognostic indicator in head injury, 768

Prolactin
Prolactin suppression of leukocyte chemotaxis *in vitro*, 462
Prostate gland
Transsphenoidal hypophysectomy for disseminated carcinoma of the prostate gland. Results in 53 patients, 275
Proximal basilar artery
Fenestrated basilar artery with an associated saccular aneurysm. Case report, 262
Pseudotumor cerebri
Glomus jugulare tumor presenting with increased intracranial pressure. Case report, 823
Pulmonary shunt
Pulmonary shunt as a prognostic indicator in head injury, 768
Pyramidal tract
Failure of pyramidal tract decussation in the Dandy-Walker syndrome. Report of two cases, 382

Quadriplegia
Neurological prognosis after traumatic quadriplegia. Three-year experience of California Regional Spinal Cord Injury Care System, 611
Tetraplegia secondary to cervical sarcoidosis. Case report, 665

Radiation therapy
BCNU and malignant glioma. Letter, 839
BCNU and malignant glioma. Response, 839
Craniopharyngiomas in childhood. A rational approach to treatment, 617
Evaluation of malignant glioma patients during the postirradiation period, 624
Spinal chordomas, 312
Radical excision
Craniopharyngiomas in childhood. A rational approach to treatment, 617
Randomization
Factors influencing future progress in neurosurgery, 541
Research training
Factors influencing future progress in neurosurgery, 541
Residency program
Foundation for International Education in Neurological Surgery, Inc. Report of Activities, 1976–1978, 123
Respiration
The physiopathology of respiration in neurosurgical patients, 699
Pulmonary shunt as a prognostic indicator in head injury, 768
Reticular formation
Principles of pain management. A short review, 554
Reticulum cell sarcoma
Uveitis and cerebral reticulum-cell sarcoma (large-cell lymphoma). Case report, 660

Sacrococcygeal lesion
Spinal chordomas, 312
Sarcoidosis
Tetraplegia secondary to cervical sarcoidosis. Case report, 665
Schwannoma
Bilateral trigeminal neurofibrosarcoma. Case report, 253
Scoliosis
Scoliosis and hydrocephalus in myelocele patients. The effects of ventricular shunting, 174

Seizure. *See* Epilepsy
Serotonin
Cerebrovascular responses to subarachnoid blood and serotonin in the monkey, 441
Shunt
Determination of CSF shunt function. Letter, 399
Determination of CSF shunt function. Response, 399
Histological examination of kaolin-induced hydrocephalus. Its implications in the therapy of animals with experimentally induced hydrocephalus, 70
Percutaneous restoration of a kinked shunt. Case report, 391
Scoliosis and hydrocephalus in myelocele patients. The effects of ventricular shunting, 174
Shunt flow velocity
Intraoperative evaluation of cerebral hemodynamics using directional Doppler technique. Part I: Arteriovenous malformations, 145
Shunt infection
The effect of topical application of antibiotics on the cerebral cortex. An experimental update, 792
Long-term results after ventriculoatrial and ventriculoperitoneal shunting for infantile hydrocephalus, 179
Skull defect
Agenesis of parietal bones with restoration of the cranial vault. Case report, 674
Skull fracture
Bilateral trigeminal and abducens neuropathies following low-velocity, crushing head injury. Case report, 508
Depressed skull fracture in the neonate. Report of three cases, 512
Skull growth
Craniofacial growth following experimental craniosynostosis and craniectomy in rabbits, 187
Motion of bones and volume changes in the neurocranium after craniectomy in Crouzon's disease. A roentgen stereometric study, 494
Skull tong
A new self-drilling skull traction device with flexion-extension modification. Technical note, 528
Sodium
Effects of dexamethasone on tumor-induced brain edema and its distribution in the brain of monkeys, 361
Speech
Individual variability in cortical localization of language, 164
Sphenoid sinus
Neurovascular relationships of the sphenoid sinus. A microsurgical study, 31
Spinal cord
The effects of ischemia on long-tract neural conduction in the spinal cord, 639
Familial intradural arachnoid cysts. Report of two cases, 826
Reconstruction of the atlas and axis with wire and acrylic after metastatic destruction. Case report, 668
Spinal cord blood flow
Loss of autoregulation and posttraumatic ischemia following experimental spinal cord trauma, 198
Pathophysiology of spinal cord injury. Letter, 840
Spinal cord blood flow and conduction during experimental cord compression in normotensive and hypotensive dogs, 353
Blood flow in experimental cord trauma. Letter, 270
Blood flow in experimental cord trauma. Response, 270
Spinal cord compression
Metastatic tumors of the spine. Letter, 536
Metastatic tumors of the spine. Response, 536
Spinal cord blood flow and conduction during experimental cord compression in normotensive and hypotensive dogs, 353
Subdural spinal fungal granuloma due to *Candida tropicalis*. Case report, 395
Spinal cord conduction
Spinal cord blood flow and conduction during experimental cord compression in normotensive and hypotensive dogs, 353

Index

Spinal cord injury
Alteration of posttraumatic ischemia in experimental spinal cord trauma by a central nervous system depressant, 207
Analysis and measurement of some sources of variability in experimental spinal cord trauma, 784
Blood flow in experimental cord trauma. Letter, 270
Blood flow in experimental cord trauma. Response, 270
Effect of vasodilators and myelotomy on recovery after acute spinal cord injury in rats, 349
The effects of ischemia on long-tract neural conduction in the spinal cord, 639
Experimental spinal cord injury produced by slow, graded compression. Alterations of cortical and spinal evoked potentials, 48
Loss of autoregulation and posttraumatic ischemia following experimental spinal cord trauma, 198
Neurological prognosis after traumatic quadriplegia. Three-year experience of California Regional Spinal Cord Injury Care System, 611
Pathophysiology of spinal cord injury. Letter, 840
Pathophysiology of spinal cord injury. Response, 840
The physiopathology of respiration in neurosurgical patients, 699
Pressor response resulting from experimental contusion injury to the spinal cord, 58
Studies of experimental cervical spinal cord transection. Part II: Plasma norepinephrine levels after acute cervical spinal cord transection, 629
Studies of experimental cervical spinal cord transection. Part III: Effects of acute cervical spinal cord transection on cerebral blood flow, 633
Spinal fracture
Tetraplegia secondary to cervical sarcoidosis. Case report, 665
Spinal fusion
Swan-neck deformity secondary to osteomyelitis of the posterior elements of the cervical spine. Case report, 388
Spinal tumor
Combined neurilemmoma and angioma. Tumor of ectomesenchyme and a source of bleeding, 81
Extradural spinal involvement by gout. Case report, 236
Metastatic tumors of the spine. Letter, 536
Metastatic tumors of the spine. Response, 536
Multiple intramedullary neurinomas of the spinal cord. Case report, 817
Spinal chordomas, 312
Spondylolisthesis
Spondylolisthesis after multiple bilateral laminectomies and facetectomies for lumbar spondylosis. Follow-up review, 45
Spondylolisthesis after surgery for spondylosis. Letter, 693
Spondylolisthesis after surgery for spondylosis. Response, 693
Spondylosis
Spondylolisthesis after multiple bilateral laminectomies and facetectomies for lumbar spondylosis. Follow-up review, 45
Spondylolisthesis after surgery for spondylosis. Letter, 693
Spondylolisthesis after surgery for spondylosis. Response, 693
Thoracic myelopathy caused by osteophytes of the articular processes. Thoracic spondylosis, 779
Stereophotogrammetry
Motion of bones and volume changes in the neurocranium after craniectomy in Crouzon's disease. A roentgen stereometric study, 494
Stereotaxic surgery
Physiological study of presumed ventralis intermedius neurons in the human thalamus, 290
Stereotaxis
A computerized tomography-computer graphics approach to stereotaxic localization, 715
Steroid
Further data on the acute effect of intravenous steroids on canine CSF secretion and absorption, 477
Subarachnoid hemorrhage
Cerebrovascular responses to subarachnoid blood and serotonin in the monkey, 441
Experimental assessment of phenoxybenzamine in cerebral vasospasm, 158
Fenestrated basilar artery with an associated saccular aneurysm. Case report, 262
Regional cerebral blood flow in patients with ruptured intracranial aneurysms, 587
Subdural hematoma
The contrast-enhanced CT scan in the diagnosis of isodense subdural hematoma, 64
Subdural hematoma in an adult following a blast injury. Case report, 260
Subependymal astrocytoma. *See* Astrocytoma
Subependymoma
Simultaneous clinical manifestation of subependymoma of the fourth ventricle in identical twins. Case report, 655
Symptomatic subependymoma. Letter, 271
Superficial temporal artery
Superficial temporal artery-middle cerebral artery (STA-MCA) anastomosis. Pathological study of two cases, 377
Superior cerebellar artery
Arterial cross compression of the trigeminal nerve at the pons in trigeminal neuralgia. Case report with autopsy findings, 257
Suprasellar lesion
Diagnosis and treatment of suprasellar arachnoid cyst. Report of three cases, 515
Suprasellar sarcoid granuloma
Neurosarcoidosis with computerized tomographic visualization and transsphenoidal excision of a supra- and intrasellar granuloma. Case report, 814
Supratentorial cyst
Use of computerized tomography scanning in supratentorial arachnoid cysts. A report on 20 children and four adults, 333
Surgery in sitting position
Subdural tension pneumocephalus. Report of two cases, 525
Surgical treatment
An analysis of follow-up results of 1000 intracranial saccular aneurysms with definitive surgical treatment, 152
Empty sella and rhinorrhea. A report of eight treated cases, 466
Spinal chordomas, 312
Swan-neck deformity
Swan-neck deformity secondary to osteomyelitis of the posterior elements of the cervical spine. Case report, 388
Sweating
Thermoregulatory sweating in palmar hyperhidrosis before and after upper thoracic sympathectomy, 88
Sympathectomy
Thermoregulatory sweating in palmar hyperhidrosis before and after upper thoracic sympathectomy, 88
Sympathetic nervous system
Pressor response resulting from experimental contusion injury to the spinal cord, 58
Syringomyelia
Scoliosis and hydrocephalus in myelocele patients. The effects of ventricular shunting, 174

Tetraplegia
Tetraplegia secondary to cervical sarcoidosis. Case report, 665
Thalamus
Physiological study of presumed ventralis intermedius neurons in the human thalamus, 290
Principles of pain management. A short review, 554
Thermoregulation
Selective traumatic infarction of the human anterior hypothalamus. Clinical anatomical correlation, 645

Third ventricle
Meningioma of the anterior part of the third ventricle. Case report, 233
Primary intracranial endodermal sinus tumor. Case report, 246
Thoracic myelopathy
Thoracic myelopathy caused by osteophytes of the articular processes. Thoracic spondylosis, 779
Three-pronged clamp
A new self-drilling skull traction device with flexion-extension modification. Technical note, 528
Thrombosis
Endothelial cell damage and thrombosis formation following temporary arterial occlusion. Effects of pretreatment with aspirin or heparin, 578
Treatment of carotid-cavernous fistulas by cavernous sinus occlusion, 131
Training
A neurosurgical nurse practitioner training program. An educational technical note, 798
Transclival approach
Repair of cerebrospinal fluid fistula following transoral transclival approach to a basilar aneurysm. Technical note, 834
Transient ischemic attack
Regional cerebral blood flow and oxygen utilization in superficial temporal-middle cerebral artery anastomosis patients. An exploratory definition of clinical problems, 733
Superficial temporal artery-middle cerebral artery (STA-MCA) anastomosis. Pathological study of two cases, 377
Transient ischemic attacks due to increased platelet aggregation and adhesiveness. Ultrastructural and functional correlation, 449
Transoral approach
Repair of cerebrospinal fluid fistula following transoral transclival approach to a basilar aneurysm. Technical note, 834
Transsphenoidal approach
Neurosarcoidosis with computerized tomographic visualization and transsphenoidal excision of a supra- and intrasellar granuloma. Case report, 814
Neurosurgical management of acromegaly. Results in 82 patients treated between 1972 and 1977, 454
Neurovascular relationships of the sphenoid sinus. A microsurgical study, 31
Trigeminal nerve
Bilateral trigeminal and abducens neuropathies following low-velocity, crushing head injury. Case report, 508
Neurovascular relationships of the sphenoid sinus. A microsurgical study, 31
Trigeminal neuralgia
Arterial cross compression of the trigeminal nerve at the pons in trigeminal neuralgia. Case report with autopsy findings, 257
Trigeminal tumor
Bilateral trigeminal neurofibrosarcoma. Case report, 253
Trochlear nerve
Neurilemmoma of the fourth cranial nerve. Case report, 519
Tuberous sclerosis
Recurrent subependymal giant-cell astrocytoma in the absence of tuberous sclerosis. Case report, 106
Subependymal giant-cell astrocytoma. Case report with ultrastructural study, 240
Tumorigenesis
Simultaneous clinical manifestation of subependymoma of the fourth ventricle in identical twins. Case report, 655
Twins
Simultaneous clinical manifestation of subependymoma of the fourth ventricle in identical twins. Case report, 655
Urinary diversion
Results of urinary diversion in patients with myelomeningocele, 773
Uveitis
Uveitis and cerebral reticulum-cell sarcoma (large-cell lymphoma). Case report, 660
Vascular occlusion
Endothelial cell damage and thrombus formation following temporary arterial occlusion. Effects of pretreatment with aspirin or heparin, 578
Vasodilator
Effect of vasodilators and myelotomy on recovery after acute spinal cord injury in rats, 349
Vasospasm
Cerebrovascular responses to subarachnoid blood and serotonin in the monkey, 441
Regional cerebral blood flow in patients with ruptured intracranial aneurysms, 587
Vasospasm following transcranial removal of large pituitary adenomas. Report of three cases, 229
Ventralis intermedius neuron
Physiological study of presumed ventralis intermedius neurons in the human thalamus, 290
Ventricular dilatation
Regional cerebral blood flow in patients with ruptured intracranial aneurysms, 587
Ventriculitis
The effect of topical application of antibiotics on the cerebral cortex. An experimental update, 792
Ventriculoatrial shunt
Long-term results after ventriculoatrial and ventriculoperitoneal shunting for infantile hydrocephalus, 179
Ventriculography
Diagnosis and treatment of suprasellar arachnoid cyst. Report of three cases, 515
Ventriculoperitoneal shunt
Long-term results after ventriculoatrial and ventriculoperitoneal shunting for infantile hydrocephalus, 179
Vertebral lesion
Spinal chordomas, 312
Vincristine
Chemotherapy as an adjunct in the initial management of cerebellar medulloblastomas. A preliminary report, 721
Vitrectomy
Uveitis and cerebral reticulum-cell sarcoma (large-cell lymphoma). Case report, 660
Vitritis
Uveitis and cerebral reticulum-cell sarcoma (large-cell lymphoma). Case report, 660
